
Title: Explanation

Author: Magellan

To whom it may concern:

First, my regards to all involved, and greetings on behalf of Corvus Est, the Sea Raven Empire.

Enclosed is a collection of works I am submitting for your evaluation for inclusion into the library.

The volumes enclosed cover the past year of my exploits while on Atlantic, and reflect actual occurrences over that time.

Some parts of the chronicle deal with typical random adventures that occur here in Sosaria, and others deal with what led me to attempt the endeavour of developing a new guild.

While I did not know the Lord Goodman personally, I am familiar, as most citizens are, with the legacy he left behind. It is said a man is judged by the quality of his friends, and based on all that you and your associates are doing, Lord Goodman was a great man indeed.

I have tried, in my own small way, to contribute to the various endeavours that are meant to immortalize him, and will continue to participate at every opportunity.

I hope these volumes will be suitable for the new library.

Warmest Regards,
Belisarius (Captain,
Corvus Est)
Magellan (Admiral, Corvus
Est)
Lorenzo (Rez Detail, The
Drawing of the Three)
Prometheus
Hannibal
Elvis

P.S. Two more chapters
are now complete, and i
will make a future
delivery once five are
complete.

Dear Magellan,

These are wonderful books
and I will most certainly
include them in the
library. In fact they have
inspired me to add
another building in which
to properly house them. I
have sealed them and
finally have a spot
worthy of them...

Thank you very
much. Andrasta GRL
